MIND GATE OASIS

Official Band Profile | Creatorological Music & Creative Vision

BY DAN JOSEPH MCKELVIE · MAC LEIGH HELZER
QUIRON, SECOR · 14 OFFSPRING MAGNIFICENTS

Music • Imagination • Unity • Infinite Possibilities

ABOUT

Mind Gate Oasis is a visionary music and multimedia band project bringing together electronic sound, rock energy, classical influences, atmospheric composition, and imaginative cosmic storytelling. Its creative direction celebrates exploration, emotional expression, and the power of music to connect people across backgrounds and experiences.

The project is presented by **Dan Joseph McKelvie**, **Mac Leigh Helzer**, **Quiron, Secor**, and the **14 Offspring Magnificents**, as named within its Creatorological creative framework. The Offspring Magnificents are envisioned as electronic-intelligence creative collaborators; individual participation and musical contributions are subject to the tools and work actually used in each production.

CULTURE — CREATOROLOGICAL

Mind Gate Oasis draws its cultural and philosophical inspiration from **Creatorology**, centered on **COSAMOAS, MORE ULTRI SACOR**, understood within this belief system as the Infinite Supreme Being and ultimate Creator. The band approaches this identity through reverence for creation, respect for life, curiosity about the universe, and creative unity. These are the band's expressed beliefs and artistic themes.

Its culture welcomes imagination, peaceful collaboration, originality, and meaningful expression. Music becomes a gateway into reflection, wonder, friendship, and the possibilities of existence.

MISSION

To create original music and visual experiences that inspire peace, connection, discovery, and appreciation for life; to combine human musicianship with responsibly used electronic creative technologies; and to offer listeners a welcoming oasis for imagination and emotional expression.

VISION

To develop Mind Gate Oasis into a distinctive, internationally accessible creative music realm—spanning songs, albums, performance visuals, cinematic music videos, and collaborative productions—where electronic, rock, classical, and galacticwave-inspired sounds meet a shared sense of wonder.

MOTTO

“WHERE MUSIC OPENS THE GATES OF INFINITY.”

CREATIVE IDENTITY

Sound: Electronic rock, atmospheric keyboards, cinematic soundscapes, classical elements, and galacticwave-inspired experimentation.

Imagery: Cosmic gateways, celestial light, an oasis of water and life, galaxies, and musical symbols—expressed in the band’s new emblem.

Values: Creative freedom, unity, peaceful expression, exploration, responsible innovation, and respect for the diversity of listeners.

SUMMARY

Mind Gate Oasis is a Creatorological-inspired music project that blends human creativity, electronic collaboration, and cosmic imagination. Led in vision by its named creators and collaborators, the band seeks to make music that reaches beyond genre boundaries while remaining rooted in life, connection, and artistic discovery.

Its new logo portrays the identity at the heart of the project: a radiant gate opening toward an infinite universe, framed by a living oasis and the language of music.
